Fire Brigade Visit

This week, on Tuesday, **Year 2** were visited by the Fire Brigade. The firemen showed the children parts of the fire engine and what they did to save people's lives. The children asked lots of amazing questions and as always were very well behaved.

Acts of Kindness

Jade class this week put together a great assembly about the different types of Bullying. We learnt about how to spot it happening and what we could do about it.

In their assembly there was great role play and they sang really well. Thank you Jade class for an entertaining and interesting assembly on bullying.

Y6 STIXX

During DT lessons, **Year 6** have been looking at how structures are designed and what they need to plan and make their own shelter.

On Tuesday they worked as a team to make structures made out of rolled paper! Pretty impressive!

Colour Me!

Science Workshops

Year 4 & 5 were very busy this week learning all about crime scene investigations and how detectives solve mysteries.

They had a go at finger printing and even went on to investigate the crime scene and use specialist equipment to find clues!

What did they find???

Pudsey wants every child in the UK to have childhood which is safe, happy, secure and allows them a chance to reach their potential.

To help Pudsey, we were all wearing our spots to raise money for the charity and help the needy children. We also met Pudsey Bear who was delighted to see Wellington in spotty clothes.

Thank you everyone for taking part in dressing up and donating £1.
