Black History Assembly

DATES FOR YOUR DIARY

QUIZZES & PUZZLES

Black History

We'd like to say a huge thank you to Amber Class who put together and performed their assembly on Black History. The research and practise that was done in getting ready for the assembly was seen and the children worked really hard, doing their very best to perfect their lines. Thank you to all parents who came along and watched the assembly too!

Wellington Primary School is becoming a Rights Respecting School! Unicef is the world's leading organisation working for children and young people and their rights. In our school, we will learn about their rights by putting them into practice every day. A Rights Respecting School shows rights and respect in all its relationships

Our school team is working to help us achieve the award. It is made up of staff and pupils but governors and parents are welcome too. Rights Respecting Schools please see www.unicef.org.uk/rrsa

Convention on the Rights of the Child, visit unicef.org.uk/crc.

Look out for more updates!

Illusions!

Height & Weight Checks

Find a Puppy Among These Pandas!

This week our Governors came to visit our new school. They were just as excited as we were when we first arrived. Children from the junior classes took them on a tour of the school. The governors were very impressed and compared the new school to theirs when they were a child.

Here are some of the comments by the Governors;

"Wonderful tour by very confident children".

"Very pleased with the site".

"Very impressive!"

The children like the colours used for the classrooms, ICT suite, art room and the hall.

What do you like about the school?

Year 6 had their heights and weights checked this week. This was done to help us live a healthy life style and not become overweight and grow normally.

Did you know?

Breakfast is the most important meal of the day because it feeds your body and mind with the important nutrients and energy to function throughout the day.

If you were to spread out all the wrinkles in your brain, it would be about the size of a pillowcase.

Stomach acid can dissolve metal.

Without your little finger, you would lose 50% of your hand's strength.
