

Weekly Home Learning Activities Nursery - Week 5

<p>Ongoing Practice</p>	<p>Read a new book on Bug Club by looking through it with a parent and then telling the story in your own words or using phonics to blend for reading.</p> <p>Remember to click on the 'bugs' to complete the quizzes.</p> <p>https://www.activelearnprimary.co.uk/login</p> <p>Join Jamie for Cosmic Yoga with your family</p> <p>Stay fit by doing the 'Joe Wicks' school work out on You Tube at 9am every week day. It's a great way to start the day and feel energized.</p>  <p>Upload a photo or video on Tapestry to show you exercising if you haven't done this already.</p>
<p>Literacy</p>	<p>Listen to the story Roaring Rockets with an adult: https://www.youtube.com/watch?v=ktX40eKpK7c</p> <p>Questions to answer: What have you learnt about rockets?</p> <p>Can you hear any words in the story that rhyme? This means words that sound nearly the same like: Cat - mat / dog - log.</p> <p>On the first two pages of the book, the rhyming words are roar - soar.</p> <p>Ask a grown up to upload a photo or video to Tapestry.</p> 

Phonics

This week we are learning all about the 'u' sound.

Watch this video to find out how Geraldine the Giraffe learns all about this sound.

<https://www.youtube.com/watch?v=kmmewEew6lM>

Can you find anything beginning with 'u' in your home that Geraldine did not find?

Upload a photograph of all the things you found on to **Tapestry** for your teacher to see.

You can still use Phonics Play to support your child's learning.

Maths

This week in maths, you will need to make a collection of objects that you can use to create something the following week.

Please look for them around your home and sort them in to groups so that similar things are together.

In this photo, your teacher has made a collection of wooden things, plastic colourful things and shiny things made from metal and plastic.

Upload a photograph of all the things you found on to **Tapestry** for your teacher to see.

Other

Spend 20 minutes a day working on your Space project!

In the focus story this week, the astronauts 'scooped up samples in their moon rock bag.'

I wonder if you can create your own sample from the surface of the moon?

Things to consider:

What would it look like?
What would it feel like?
Would it be like our soil, sand, stones or something completely different?

Can you count down to 'blast off' from 5 or 10?

Upload a photo of your creation to **Tapestry** for your teacher to see.

Creative Ideas/Wellbeing

Choose two challenges to complete each week. Make sure you upload a photo or video on **Tapestry** for your teacher to see!

1. Bird spotter challenge...

In the nursery garden we often see some of these birds.

Can you see any birds

from your home?

Can you name any of the birds you see?

2. Collage creation

Can you create a collage using unwanted materials?

You could use newspaper, catalogues, magazines, left over wrapping paper, cards etc

You can make a picture of anything, but if you create a rainbow, you could put it up in a window of your home to thank the wonderful people who are helping to keep us safe and well.

3. Fitness challenge

Can you stand on one leg and ask a grown up to count to ten before you put it down again?

Can you stand on the other leg?

One leg may be stronger than the other!

Remember that you can stretch your arms out to help you balance.

How long can you stand on one leg for?

I wonder if you can stand on one leg for longer if you practise every day?

This bird likes to stand on one leg
