

CHILDREN IN NEED

SPORT

Puzzles...

## WE WERE SPOTACULAR!!!

Today we all came to school wearing spotty clothes to help raise money for those children who are not as lucky us. Children in Need happens every year and the money raised helps make a difference to all children across England. We met Pudsey too, he was ever so pleased to see us and he was very impressed with our outfits.

**Road Safety** Year 4 were busy this week learning how to cross the roads safely. They also learnt how to walk safely on the pavement, how to safely cross driveways and zebra crossing.

Safa said *'It was a wonderful time learning about the safe way to cross the road.'*

Hrik added, *'It was a good to be outside finding out about the safe way to use crossings.'*

### YEAR 1

This week we have had lots of fun making shape monsters and Pudsey masks.

### YEAR 2

We have been recognising and adding coins in maths. We found out that we can make lots of money using different coins.

Using 3 different coins each time how many totals can you make?

### GREAT SPORT!

This week ten pupils from year 5 took part in the annual Year 5 and 6 sports day at Cranford Community College. In total 44 schools from Hounslow took part, Wellington narrowly missed out on a place in the semi-finals to Westbrook Primary School. The children represented the school extremely well and were even competing against some children who were a year older!

*Inaaya in Diamond said, 'Even though we didn't win, we had fun and are really proud of ourselves.'*

*Zeeshan in Diamond explained, 'We were all really proud to represent Wellington, the best part of the day was the relay race- running with the batons.'*

### What shape am I?

I have 5 sides and 5 angles  
Some people think  
I look like a house?

I have 6 faces  
Sometime people roll me on the  
table if a game needs a dice.

I have 6 sides and 6 angles. If  
you look closely, you may see my  
shape on most pencils and  
beehives...

I have 3 sides and 3 equal  
angles, I am the shape of a  
pizza slice.
