## Sports Relief

# SCIENCE DOME !!!

This week the juniors had workshops on a range of topics; Space, volcanoes, forces and lots more! These were all in an inflatable science dome as part of their science curriculum. The dome was huge and it felt strange to be inside this portable classroom with a projector to light up the inside. We learnt so many fascinating facts and it felt as though we were actually there, it really made science fun! If you want to find out more about science and how it works visit the - [Science Museum](#).

Today we all got involved in Sports Relief to help raise money to support some of the poorest people in England and around the world.

There were posters up everywhere. Y6 went to all the classes to sell wrist bands etc. We got to wear our sports outfits and so did the teachers!

One of the activities was running the mile, this was not easy! Some people ran, walked skipped or even a mixture! Did you know **"15 minutes of self-paced exercise [like The Daily Mile] can improve mood, attention and memory –and ability to learn?"**

It was great see everyone involved and at the end of the mile everyone received a certificate!

**WELL DONE EVERYBODY-YOU WERE FANTASTIC!!**

Lots more great ways to get fit here: [Get fit for Kids](#).

### RECEPTION

Reception were keeping fit by learning how to take part in exercise and keep that body moving, especially on how to hula hoop. To learn, go to [How to use a Hula Hoop](#). They were very busy writing questions, to ask the troll after reading The Billy Goats Gruff. If you don't know the story then take a look here [Billy Goats Gruff](#).

In maths they were learning about half full or half empty? What would you say?

### Infants

They were keeping fit too and were running round the field and keeping active for at least 15 minutes! WOW, they were certainly fit and healthy.

In PE we have been focusing on our team building skills and learning new team games – more games here:

<https://www.activityvillage.co.uk/group-games>.

We have been collecting data in ICT and finding our favourite sports – lots of places have clubs for children <http://www.thelittlefoxesclub.com/>

Year 1 have been learning about Florence Nightingale – do you know who she was? Find out more by clicking here: [Florence Nightingale](#).

### Rights to Respect

This week the Rights To Respect team met to discuss how Wellington could show all the articles being used and understood.

The team are working hard to involve everyone in being aware of the articles and what they look like.

Look out for the suggestion box!
