

HUNGRY Caterpillar

RECYCLING

EASTER Holidays

NURSERY IN ACTION!

Nursery stole the show this week with their 1st ever production at school, The Hungry Caterpillar. If you don't know the story take a look here [The Hungry Caterpillar story](#). They were introduced to the story and had a discussion about the key events that happened in the book. The children had worked very hard learning all their lines and remembering when to come on and get off stage.

Reception have been learning how to share different things equally in maths. They made Easter baskets and Easter nests with chocolate eggs, yummy! The children found about the Easter story and began to put the story in the correct order.

This week **Diamond Class** did an assembly about recycling. The children were asked what they thought recycling was. It was then explained to them and they were given facts about the impact of recycling on the country and worldwide. The children were also told about what could be recycled and were introduced to the different types of recycle symbols and ways to look after our environment.

If you want to know more about recycling click [here](#) and some interesting [Fun Facts](#).

The performance was finished off with a class song, click [under the sea](#) and sing along.

Well done Diamond Class and let us know how YOU are recycling your rubbish.

Easter cards were designed and made by Y1 & Y2. They were very creative and symmetrical as well as colourful! Have you made yours? Year 2 created nonsense poems:

*In my rucksack have –
A cikyshuirl to eat is I am hungry*

*In my rucksack have –
A shallamakooki to jump to the rough round moon*

*In my rucksack have –
A cartmeal to go on extremely long journeys around the world.*

By Hansika (Year 2)

HAPPY HOLIDAYS FROM US ALL!

Last week **Year 4** were busy out and about finding out how to be safe when crossing the road. The trainers helped teach the children essential road safety skills. This included how to find a safe place to cross, the importance of wearing bright clothes and how to cross the road at a junction or near a parked car.

How many mistakes can you spot?

School Traffic Corner

Find the Mistakes

How many mistakes (including safety violations) can you find in this picture? Try to find at least 20. If you know your safety rules, you will find many more!

Check these out!
