## BE UNIQUE INSTEAD OF BEST!

In the Juniors we had an assembly on Being Me in my World. It really made us think about being different and unique. We imagined everyone being the same and liking the same things, this would be very boring and the school would have to buy so many of the same thing!

Did you know every snowflake is different, but the snow looks the same once it has fallen and every thumb print is unique and so are we!! The main thing we learnt was ...

***'Be unique instead of best.  
Because being the best just makes you  
number 1, but being unique makes you the  
only one!' Sneha***

### READING

Today in assembly some children received prizes for taking part in the Summer reading Challenge! To complete the challenge, they had to read at least 6 books and collect stickers from Hounslow Library and stick them in their mission folder. There are some great authors like David Walliams, Louis Sachar and JK Rowling!

Without reading we wouldn't be able to learn or understand anything, remember to read every day!

### EYFS – Nursery & Reception

In reception they have been learning how to do good listening and how to be a friend – go to this link [Listening](#) and singalong to why listening is important.

In Nursery they have been very busy learning how to do things and how to tidy up! Learn the tidy up [Song](#) and how can we tidy up in the picture below?

### KS1

Year 1 this week have been naming body parts in science and trying to explain what each part does! Learn more using this link [Body Parts](#).

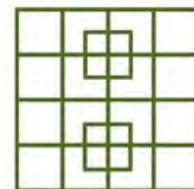

In maths they have been ordering numbers to 100 and beyond, [ordering numbers](#).

Year 2 have been busy in art this week creating some fantastic London skyline silhouettes.

Also we have been busy retelling the story of Shrek. In maths we have been counting in 2, 5, 10s forwards and backward. Go to the [Work out and count](#) link and keep fit while you are practising to count!

## Brain Teasers
