

## SPORTS DAY

## RECORDERS

## READING

### WHEN WORDS FAIL, MUSIC SPEAKS

**JUNIORS** – Yesterday the juniors had their sports day – it was amazing! There were 9 events including javelin throwing, hurdles, sprinting and long jump. Well done **Blue team** who were the overall winners! Thank you parents for coming and supporting us!!!

On Wednesday, Year 3 showed off their skills in playing the recorder in a concert to parents.

Mr. Ashton was very impressed with the standard and went away feeling extremely proud of Year 3 achievements in such a short time.

### NURSERY & RECEPTION

The highlight of this week in Early Years has been watching the butterflies emerge from their cocoons.

We have been using magnifiers to look at them more closely. We are also learning to use new vocabulary for the parts of the butterflies when we describe them, such as antennae and proboscis.

Santoshini "The butterflies are very beautiful."

Shameek "The butterflies have orange on their wings, there is a little bit of white and some black on the other side."

Soraiyah "Their bodies are small and long, a bit like the shape of the cocoon."

### INFANTS

Year 2 have been a great audience this week! We have watched the year 3 recorder concert and listened to the violin teacher play the violin! Year 2 have the chance to play both of these instruments next year!

They have been designing ice cream sundaes as part of their DT project - we look forward to making ice creams!

#### DID U KNOW?

The most popular flavour of ice cream is **vanilla**. After it come chocolate, strawberry, cookies n' cream, and others.

Over her entire lifetime, one daily cow can produce enough milk for 9,000 gallons of ice cream!

### BRAIN GYM

How could you rescue a cat from a tree using only a toothbrush, chewing gum and a sewing machine?

### SUMMER READING CHALLENGE

STARTS 13<sup>th</sup> JULY 2019
