

## Minecraft testing!

## Healthy Mind and Body

## Puzzles...

### MINE CRAFT

On Tuesday, the digital leaders were beta-testing the new educational version of Minecraft, a very famous game. It was specially designed for students. The digital leaders were very lucky and got the opportunity to test it so the rest of the schools can try it too. Theo said, **"It was excellent and I want to do it again."**

### HEALTHY MIND

We are always looking for ways to keep our bodies fit and healthy, but do we know how to keep our brains fit? There are lots of things you can do;

- Eat plenty of fruit and veg
- Eating avocados increases blood flow to the brain
- Learn to play a musical instrument
- Crosswords
- Scrabble
- Drinking lots of water
- Play chess
- Learn a different language

**Can you think any more ways to keep your brain fit and healthy?**

### YEAR 1

They have been describing seasons and how they change in topic and watching how cress grows in science.

**How would you describe the seasons and which one is your favourite? Why?**

### YEAR 2

They have been debating whether to build houses on Lampton park and looking at the advantages and disadvantages. Do you think houses should be built on Lampton Park? Give your suggestions to Year 2.

In art they created a great drawing of the bird and the cat by Paul Klee a famous artist - they look amazing!

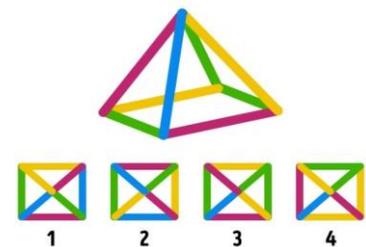

How many different types of birds and cats can you name?

Some examples of art work from year 2

### Puzzles !!!

WHICH ONE IS THE TOP VIEW OF THIS PYRAMID?

**DID YOU KNOW.....?**

The human brain weighs 3 pounds.

It is made up of 60% fat and is one of the fattest organs in the human body.

Human brain is able to generate approximately 23 watts of power when awake.

Of the total blood and oxygen that is produced in our body, the brain gets 20% of it.
