Harvest Festival

STONE AGE - Y3

On Thursday **Amber** class did an assembly on Harvest and we learnt all about it. Did you know Harvest is from an Anglo-Saxon word "haerfest" which meant 'Autumn?' When a crop has grown and is ready to eat, the farmer must collect it from the fields. This is known as the harvest. Depending upon the crop, it can take a lot of time to collect all the fruit and vegetables.

There was a lot of food in the junior and infant halls when we had assembly today. The very important message we learnt was to share with those people who were not as lucky as us and the food will be going to the church on Tuesday to support Hounslow food bank.

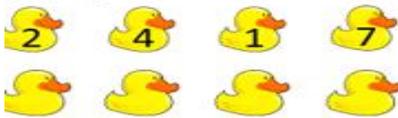

THANKYOU EVERYONE!

Year 3 were busy going back in time and had a workshop all about the Stone Age. The Stone Age was a time thousands of years ago, when early humans lived in caves and jungles. Life was simple, and there were only two main things to do – to protect themselves from the wild animals and to gather food. It started almost with the evolution of mankind. For both purposes, people made tools from stone. Do you recognise these cartoon characters who lived during the Stone Age and tell us how they lived?

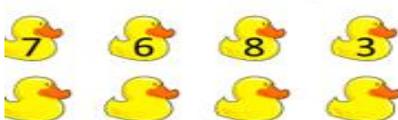

YEAR 1

In Year 1 we have been creating art work for displays and have been ordering numbers from smallest to largest in maths. Can you order these numbers from smallest to largest?

Write the numbers on the ducks in order, starting with the smallest, from left to right.

Write the numbers on the ducks in order, starting with the smallest.

We are also reading 'Not Now Bernard' and enjoying talking about the story. Have you read the book?

YEAR 2

We have been trying really hard with bar modelling this week in maths and recalling number facts to 100. In art we created some fantastic autumn leaf images.

How many leaves can you name?

We are also writing our own stories set in London. How many famous landmarks can you name?

DID YOU KNOW?

Fun Healthy Food Facts

- Apples are made of 25% air, which is why they float.
- Avocado has highest protein content of all fruit.
- Cabbage is 91% water.
- Cherries are a member of the rose family.
- Lemons contain more sugar than strawberries.
- Honey is the only edible food that never goes bad.
- Eggplants are fruits and classified as berries.

Healthy OR Not Healthy?
