Week beginning: 15.1.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. If there are any questions, please email your child's class teacher.

	<p>Can you name a few factors that determine whether a community is considered rich or poor? Explain in simple terms why some neighbourhoods are called "rich" and others "poor." Can you give examples of how life might be different for children living in rich and poor communities? How might the availability of resources like schools and parks differ between rich and poor communities? Imagine you are helping a friend from a poor community. What kind of support might they need? What do you think could be the reasons behind the differences in the way people live in rich and poor communities? Do you think it's fair that some communities have more resources than others? Why or why not? What could be done to make sure that everyone, regardless of where they live, has access to the things they need?</p>	<p>compare in your writing? Explain in your own words why comparing things can be interesting for readers. How would you summarise the main points of each thing you are comparing? How can you use descriptive language to paint a vivid picture of each subject in your writing? Why do you think it's important to analyse both the similarities and differences?</p>	<p>What am I most proud of? What writing targets do I need to continue to work on? What edits can I add in to make my work better?</p>	<p>What specific elements in the cover's artwork or design caught your attention, and why? What symbols or imagery might hold deeper meaning related to the content?</p>	<p>a sentence in active voice? Can you give an example of a sentence in passive voice? How is an active voice or passive voice sentence correctly punctuated?</p>

Weekly Overview of Learning

Year Group: 5

Week beginning: 15.1.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. If there are any questions, please email your child's class teacher.

Activities	<p>In this lesson, children will be comparing a rich community to the poor community in the text 'Bronze and Sunflower'. Children will compare their life to the children's in 'Damaidi'. They will look at it from different aspects and plan towards writing a long comparative write. Children will need to look at language features such as formal language and figurative language as well as structure features in order to have a detailed piece.</p>	<p>In this lesson, children will be using their compare and contrast frame of rich and poor communities and writing a comparative piece of writing. They will be comparing what is different and similar about these two communities and writing in a structured piece. Children will make sure the writing is written with consideration of all year 5 outcomes such as PEE paragraphs, technical language and relative clauses.</p>	<p>In this lesson, children will look back on their comparative writing and reflect on what they did well and where they need to improve using the Year 5 Writing Composition Outcomes. Children will look at the technical features, language features and structural features of their writing as well as grammar, punctuation and spelling. Children will identify any further areas of development.</p>	<p>In this lesson, children will take part in various discussions and activities that will help them consolidate their understanding on the purposes and features of a book cover. Following this, the children will use what they have learnt about book covers to make their own prediction on what they think the book, 'Cosmic' will be about. As a whole class, children will discuss the content domains we will be using in this lesson and what they mean. Then, children come up with ideas for what they can see, wonder and then infer. As a class, children will read the blurb and then rethink their predictions for the book. In this lesson, children will take part in various discussions and activities that will help them consolidate their understanding on the purposes and features of a book cover. Following this, the children will use what they have learnt about book covers to</p>	<p>In this lesson, children will go through the PIXL therapy on active and passive voice. Children will discuss what active voice is and the order of subject, verb and object. Children will also discuss passive voice and how the structure changes to object, verb and then subject. As a class, children will create examples of active and passive voice. Children will then complete activities using active and passive voice.</p>

Weekly Overview of Learning

Year Group: 5

Week beginning: 15.1.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. If there are any questions, please email your child's class teacher.

Activities	<p>In this small step, children build on their understanding of finding a fraction of an amount, as they use a fraction of an amount to find the whole. Children start with finding the whole from a unit fraction, initially using counters and bar models for support. They identify that if they know one equal part, they can use multiplication to find the whole. Once this is secure, children move on to finding the whole from a non-unit fraction. They should start by identifying what one part is to help them work out the whole.</p> <p>Kim uses a bar model to help work out the missing amount.</p>  <p>Use Kim's method to work out the missing amounts.</p> <p> $\frac{2}{5}$ of _____ = 6 $\frac{3}{7}$ of _____ = 18 $\frac{1}{5}$ of _____ = 8 $\frac{6}{7}$ of _____ = 54 $\frac{1}{3}$ of _____ = 20 $\frac{2}{5}$ of _____ = 15 </p>	<p>In this small step, children revisit and compare their learning from earlier in the block as they look at fractions as operators. They should recognise the connection between finding a fraction of an amount and multiplying a fraction by an integer. Firstly, children are encouraged to both find fractions of amounts and multiply fractions, and to identify patterns. It may be appropriate to recap converting improper fractions to whole numbers/mixed numbers. Children should also recognise that commutativity of multiplication can be used, for example 3 of 6 is the same as $6 \times \frac{1}{3}$. They also explore when it would be more efficient to choose each method, using their knowledge of factors.</p>	<p>In this lesson, children will be showcasing their learning by completing the fractions end of unit assessment. Children will work independently through the questions using the knowledge acquired in previous lessons.</p> 	<p>In Year 4, children represented tenths and hundredths as decimals and fractions. By the end of this small step, children will be more familiar with numbers with up to 2 decimal places, with thousandths being introduced later in the block. Using a hundred piece of base 10 as 1 whole, a ten piece as a tenth and a one piece as a hundredth shows children that they can exchange, for example, 10 tenths for 1 whole, or 10 hundredths for 1 tenth. A hundred square where each part represents 1 hundredth, or 0.01, can also help children to see the relationship between a hundredth, a tenth and a whole. Children make decimal numbers using place value counters in a place value chart and read and write the numbers, as well as working out the value of each digit in the number. They also explore partitioning decimal numbers in a variety of ways.</p>	<p>In Year 4, children learnt about tenths as fractions as well as decimals. In this small step, children consolidate their understanding of equivalent fractions and decimals when working with tenths. Children start by exploring equivalent fractions and decimals within 1, before extending this to numbers greater than 1. Place value counters, bead strings, straws and number lines are all good representations for tenths. Remind children that when 1 is split into 10 equal parts, then one of those parts is called a tenth, which could also be written as 0.1, making $\frac{1}{10}$ and 0.1 equivalent. It is important children practise counting up in 0.1s and crossing 1 whole, making sure they do not say "zero point nine, zero point ten, zero point eleven ...". For numbers greater than 1, for example 1.2, children should see this written as 1.2, $1 \frac{2}{10}$ and $1 \frac{1}{5}$.</p>

Weekly Overview of Learning

Music – Sing Up	RE – Widening Horizons	PE – Get Set 4 PE
<p><u>LI: We are learning more about Islamic music and Nasheed.</u></p> <p>Following on from last week, we will continue to learn the new piece of work in music this term called Madina tun Nabi; this is a modern Nasheed (Islamic song) that is all about the holy city of Madina in Saudi Arabia. The title is translated as 'The City of the Prophet'.</p> <p>By the end of the lesson, children will:</p> <ul style="list-style-type: none"> Learn more about Islamic music and Nasheed. Learn the introduction and Verse 1 of Madina Tun Nabi and recap the Chorus. 	<p><u>Lesson 1 & 2</u></p> <p><u>LI: We are learning to understand that people have different beliefs regarding death</u></p> <p>In this lesson, children will be starting their new topic of what people believe about life after death. In a class discussion, children will learn about different religions and cultures and what beliefs their families might have about death. We will then be completing a defining frame about what we have learnt.</p> <p>Key vocabulary</p> <ul style="list-style-type: none"> Recall Record Reincarnation Resurrection Life Death 	<p><u>Dance -Lesson 2</u></p> <p><u>LI: We are learning to understand how changing dynamics changes the appearance of the performance.</u></p> <p>In this lesson, children will first, in pairs, pupils recap and practise their actions from the previous lesson. Then, pupils will take their first action and explore performing it with the dynamic that is in the same row on their table e.g. kick heavily, turn smoothly. Pupils do this for each of their eight actions. Following this, two pairs will be linked together. They will perform to each other. Pupils will provide feedback on the dynamics of the actions. Pupils will use the feedback provided to improve on their performance. After, half the class will perform their dance and then the other half will perform. Finally, feedback will be shared within the class.</p>

Weekly Overview of Learning

Year Group: 5

Week beginning: 15.1.24

Every Tuesday, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. If there are any questions, please email your child's class teacher.

Spring 1, Lesson 1 & 2
 L.I. We are learning to identify what we already know about life after death and what we would like to find out

What do people believe about death?

Spring 2, Lesson 6 - Reflection
 L.I. We are learning to reflect what we have learned about life after death
 Using a green pen, include what you have learned over the course of this project **and** answer any questions you were curious about

Date: / /

Dance by Chance

	Action Week 1	Dynamics Week 2	Relationships / Space Week 3
0	extend	slowly	facing different directions
1	travel	explosively	side by side
2	kick	quickly	in canon
3	slide	sharply	in unison
4	ripple	smoothly	mirroring
5	jump	robotically	in contact
6	tilt	pulsing	back to back
7	fall	heavily	matching
8	twist	fluidly	in a backwards direction
9	spin	strongly	diagonally in space

Yoga -Lesson 2

L.I: We are learning to develop strength through yoga flows.

In this lesson, children will practise a range of strength yoga poses. Pupils will learn that lots of different muscles are used in yoga, by holding the poses for longer periods of time they also improve their strength. Pupils will be taught the following yoga poses that they are going to use in their strength yoga flow. In each of the poses children will be made aware of which muscles they are using.

Prayer - Lift your knee caps and engage (squeeze) your quadriceps.

Back bend - Feel strength in your back as you open your abdominals.

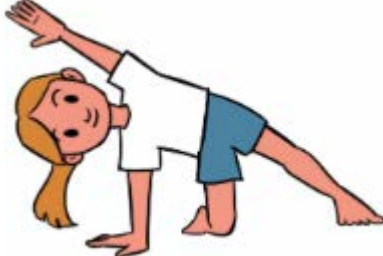

Forward fold - Feel the stretch through your hamstrings.

Shang Dynasty. They will be recording information on the different artefacts we analysed in this lesson.

Shang Dynasty Week 2-Dia of 2000
 L1: We are learning to use a range of historical sources and artefacts to explore the Shang Dynasty
 Task: Look at the pieces of evidence for the Shang Dynasty and record your observations in the table.

Evidence	Materials	Use	What can you tell about the Shang Dynasty from this piece of evidence?	Historical Information
	It is made from bronze, and is one of the heaviest bronzeware pieces to survive from anywhere in the ancient world.	A ding is an ancient Chinese cauldron used for cooking, storage or ritual offerings to the gods or ancestors.	Getting large bronze like this was very expensive and highly skilled work. This provides evidence that the Shang Dynasty people had a good supply of the raw materials to make bronze, and were experts in casting bronze on a large scale.	This huge ding is called the Wangpan ding. It was found in a tomb at 2000 and indicates that the deceased person was held in high esteem.

Year Group: 5

Week beginning: 15.1.24

Every **Tuesday**, you will see the weekly overview that sets out our learning for the week on the learning section of our school website and on Google Classroom. This is the work that children will be doing in school. If there are any questions, please email your child's class teacher.

Reading Tasks

Please read for at least 20 minutes every day and complete tasks in your reading record or purple task book.

Over the week, aim to read different text genres such as: a biography, classic novel, adventure story, poems, newspaper or cultural story.

Try and login to **Bug Club** and **Reading Eggs**.

English Homework - this week we would like you to complete your extras on Doodle English.

Doodle Spell - this week, please go on to Doodle Spell and complete your Doodle Extras please.

Doodle Maths - Log on to your account at least three times this week.

Work to reach your target - are you in the **green** zone yet?

Times Tables Rockstars:

Take part in the weekly Year 5 Battle of the Bands! It will help you to practise your multiplication facts as well as compete with the other classes!

Homework - this week you will have some questions to complete on decimals and negative numbers

Talk Tuesday

Log into your Google Classroom to discuss your Chatterbox Champions question of the week with your family.

This week's question is - Complete the sentence "I dream of...."

Discuss your question with your family, ready for Talk Tuesday next week.

Send in your reply on Google Classroom.
