The week at Wellington!

SATs

Our Year 6 pupils demonstrated calm perseverance and care for one another as they sat their tests this week. We were very proud of the way they conducted themselves through this period. Thank you parents who supported them and ensured they were prepared and on time each morning. The results will be released in early July just before parents' evening.

Parking

Please think of our neighbours and the safety of all children when you park outside the school. We have received complaints from the local residents association that parents are parking in dangerous places. We are still waiting for yellow zig zag lines to be painted outside both schools but please park away from the corner of Bulstrode Avenue and outside the school gates.

Ramadan

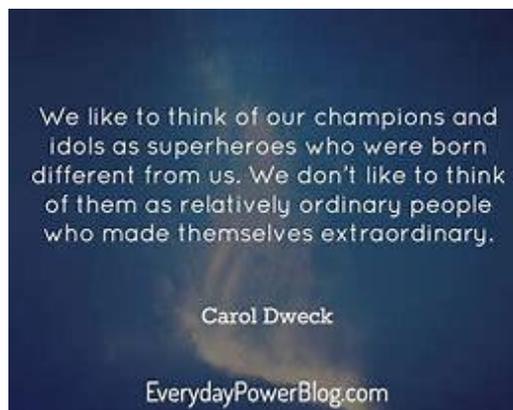

Some junior pupils can fast, if we have a letter from their parents. Some children like to join their families and try either a few days fasting or longer. Experience has shown us that only the older junior pupils cope well fasting. Please let the office or class teacher know if you wish your child to participate. If a child does not have written permission for this we will provide lunch for them as usual.

Lost Property

We will be putting the lost property boxes in the early year's playground after school on Monday next week. Please come and have a look. Anything not collected will be disposed off.

Thinking School

Test scores and measures of achievement tell you where a student is, but they don't tell you where a student could end up.
 - Carol Dweck

Ofsted

We had an Ofsted inspection on Tuesday and the outcome letter should be with parents in the next 14 days. We were very proud of the way the pupils conducted themselves. The inspector was also impressed with their books and the way in which they articulated their learning experience so clearly.

Sickness

In cases of vomiting and/or diarrhoea, please do not bring your child into school until 48 hours after the symptoms have cleared. This is to reduce the risk of passing it on.

Question of the week

If you could invent a device that helps people what would it be like and why?

Send your answers to Mr. Berryman and try to use thinking maps and hats.
