### Year 6 Heart Dissection Workshop

After this, they were split into groups of four to dissect a lamb's heart. Also they had to identify heartstrings, valves and whether the side we were looking at was the left or right side.

### Hottest Day in February Ever

During this week, it was the hottest in February. In Britain, on Tuesday it was a record-breaking temperature of 20°c degrees in Hounslow. In other places in England, it reached up to 35.3°c.

Surprisingly, it felt like it was summer in some places, even though it's winter.

Average temperatures in February are approximately 12°c. But this year things have been quite unusual. It is thought that the cause of the rise in temperature is due to global warming. This is very dangerous.
